

DETAILED ACTION

Allowable Subject Matter

1. Claims **1-20, 22, 23 and 26-29** are allowed.
2. The following is an examiner's statement of reasons for allowance:

The art of record either alone or in combination fails to teach, disclose or suggest the steps/elements of the invention in claims 1, 14 and 28, with respective dependent claims, in particular:

determining viewing preferences using the stored data indicative of the user selected TV program and data indicative of at least some others of the TV programs competing with the viewer selected TV program that were not selected as well as one or more known program traits and one or more associated program traits, the associated program traits being combined with other known program traits so as to generate new program traits representative of said viewer's degree of preference of a program according to a regression analysis of the viewing habits of the particular viewer over time.

The closest art of record, Herz (Patent No. 6,029,195) fails to teach the associated program traits being combined with other known program traits so as to generate new program traits representative of said viewer's degree of preference of a program according to a regression analysis of the viewing habits of the particular viewer over time (which represents applicant's specification on page 15 to page 18, as indicated by applicant's response on 03/08/20110, page 11).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
